

ENVIRONMENTAL POLICY STATEMENT

1. General statement

Quinshield is a professional and environmentally conscious organisation, which acknowledges the impact that our operations may potentially have on the environment.

2. Aims and objectives

The clear objective of Quinshield is to minimise any impact on the environment by:

- allocating suitable and sufficient resources and by implementing appropriate systems so that all legal duties are met
- taking steps to reduce our impact on the environment by cutting the amount of energy the company uses wherever reasonably practicable
- planning and organising deliveries and staff travel, so that road travel is kept to a minimum
- investing in low-energy technology and, if practicable, renewable energy technology
- preventing pollution, reducing waste and ensuring, wherever practicable, that measures are implemented to protect and preserve natural habitats, flora and fauna
- considering the effects that our operations may have on the local community
- promoting environmental awareness amongst our employees, suppliers, contractors and partners by implementation of operational procedures
- ensuring effective and expedient incident control, investigation and reporting
- identifying that if the company doesn't have staff with the appropriate levels of competence in-house, it will seek competent advice from an experienced environmental professional
- identifying all environmental legislation that applies, both directly and indirectly, to the company's activities
- establishing a system to monitor and report on the outcomes of this policy
- ensuring sustainability by carrying out purchasing activities in an environmentally responsible manner
- reviewing and updating this policy on an annual basis.

3. Commitment

David Wyn Jenkins will take overall responsibility for ensuring that this policy is fully adopted into the Company. All employees and sub-contractors are expected to co-operate and assist in the implementation of this policy. This includes co-operating with management on any environment-related matter.
